Capt. Chas. V. Gridley, Commander of the Olympia at Manila, Died at Kobe, Japan, June 4.

The announcement of his death was received by the navy department ate Sunday afternoon in a cablegram | THE BOLDEST ACT IN NAVAL HISTORY. from Paymaster Galt, of the navy, lated at Kobe, Japan, June 4, and directed to Secretary Long.

Capt. Gridley is the first American

officer of great prominence whose leath is a direct result of the existing war with Spain. As the commander of Adm. Dewey's splendid flag ship and one of the Admiral's chief advisors, Capt. Gridley achieved distinction at the battle of Manila bay and added to his previous laurels by winning high praise from his superiors in the service for distinguished gallantry and ability. He fought his ship from the conning tower, while Adm. Dewey directed the movements of his squadron from the bridge of the vessel. It was not known for several weeks after the engagement that Capt. Gridley had suffered from it; and even now the precise nature of his trouble is not disclosed. Upon the arrival of the Zafire at Hong Kong on May 2) the navy department was notified that Capt. Gridley had been condemned by a board of medical survey and "invalided" home. Subsequent advices received by the department indicated that Capt. Gridley was suffering from the effects of a rupture supposed to have been received
